B Demo User Interface

C Interview Questions

*While using the language complexity module; after entering each skill description (8x) **Willingness to act***

- (1) Would you rewrite the definition of this skill based on the outcomes of the language complexity module (yes/no)?
- (2) What leads you to this decision?

*After using the language complexity module **Metrics***

- (3) Next are a few questions about how the metrics are presented (crosses and check marks):
 - The metrics that score poorly are now listed at the top—in order from worst score to least poor score—with the metrics that score well listed underneath. How do you feel about this? Would you like to keep it this way?
 - For the various metrics, there is currently no explanation of the metric—what kind of metric it is, what it is based on, and how the scores are determined. Do you need that?
 - For each metric that detects complexity, it is indicated what causes the complexity. Is this sufficiently clear to you?

Type	Metric	Ethical Proportionality					Note
		Selected	Actionability	Agency	Contextual Fit		
Classifier	T-rank [48]	0	1	0	1	1	
	multilingual-e5-small-aligned-readability [38]	0	1	0	1	1	
Formula	FleschReadingEase [24]	0	1	1	1	1	for English
	Gunning Fog Index [28]	0	1	1	1	0	for 100 word English text
	Dale-Chall index [14]	1	1	1	1	1	replaceable complexity resource
	SMOG [34]	0	1	1	1	0	for English
	Flesch-Kincaid [32]	0	1	1	1	0	for English
	ARI [43]	0	1	1	1	0	for English
	LIX [2]	0	1	1	1	0	for Swedish
	RIX [3]	0	1	1	1	0	requires paragraph
	Coleman-Liau [12]	0	1	1	1	0	select unique features
	CLIB [47]	1	1	1	1	1	
	CILT [47]	0	1	1	1	0	about reading technique
	Flesch-Douma [19]	1	1	1	1	1	
	LeesindexA [7]	1	1	1	1	1	
	Bormuth [6]	0	1	1	1	0	for English
	Danielson.Bryan [15]	0	1	1	1	0	for English
	Dickes.Steiwer [18]	0	1	1	1	0	for German
	DRP [10]	0	1	1	1	0	for English
	ELF [22]	0	1	1	1	0	for listening
	Farr.Jenkins.Paterson [23]	0	1	1	1	0	for English
	FORCAST [11]	0	1	1	1	0	for English
	Fucks [26]	0	1	1	1	0	for German
	Gutierrez [21]	0	1	1	1	0	for Spanish
	Harris Jacobson [29]	0	1	1	1	0	for American children
	Linsear Write [35]	0	1	1	1	0	for English
	Neue Wiener Sachtextformeln [39]	0	1	1	1	0	for German
	Spache [45]	0	1	1	1	0	for English children
	Strain [40]	0	1	1	1	0	for English
	Tränkle Bailer [49]	0	1	1	1	0	for German
	Tekst-Redundanz-Index [33]	0	1	1	1	0	for German newspaper comments
	Tuldava [51]	1	1	1	1	1	language-independent
	Wheeler Smith [60]	0	1	1	1	0	for English primary grades
	Coleman [12]	0	1	1	1	0	for English
Word feature	woordfrequentie	1	1	1	1	1	
	concreteness	1	1	1	1	1	
	Moelijke Woorden Boek	1	1	1	1	1	
	IshetB1.nl	0	1	1	1	1	website, no API available
	Age of Acquisition	1	1	1	1	1	
Sentence feature	T-scan	0	1	1	1	1	no access, doc available
	words per sentence	1	1	1	1	1	
	nr of punctuation marks	1	1	1	1	1	
Automatic	monosyllabic fraction	1	1	1	1	1	
	Controllable Sentence Simplification (NL)	0	0	1	0	0	
	genAI prompt-engineering	0	0	1	0	1	

Table 3. Overview of readability metrics and features

- If not, how could this be clarified? What do you need?
 - The metrics currently provide no concrete text suggestions for adjusting skill descriptions. Administrators have to decide themselves how to rewrite them. Do you need concrete text suggestions?
- (4) When a metric scores poorly, the metric indicates what the threshold value is and whether the score needs to go down or up to achieve a simplification of the skill description. Is this helpful to you?
- (5) What do you think of the cut-off scores used for the metrics? Are they set too sensitively (should it be less strict), should it be stricter, or should it stay as it is?
- (6) Which metrics do you find (most) valuable?
- (7) In your view, could any metrics be removed? Which ones?
- (8) Which metrics do you think are missing? What do you need?

Usability

- (9) Do you find the module intuitive to use?
- What are your experiences with the module's interface?
 - What are your wishes for the module's interface when it is integrated into the recommender tool?
- (10) While using the module, did you perform any actions that you consider unnecessary?
- If so, which actions?
 - At the moment, one skill description is entered and assessed at a time. Is this workable for you, or do you (also) need to be able to enter and assess a whole series of skill descriptions at once?
- (11) Does the language complexity module provide you with enough guidance to make choices on your own (individually) regarding adjustments to the skill descriptions?
- If yes, what in the language complexity module provides you with this guidance?
 - If not, what do you need to be able to make individual choices (or, in your view, is that not possible at all and does it always require consultation with colleagues)?

Background knowledge

- (12) To what extent are you familiar with CompetentNL?:
- Not at all
 - A little
 - Good
 - I am an expert
- (13) To what extent are you familiar with communication strategies (ways to convey information effectively to specific target groups)?
- Not at all
 - A little
 - Good
 - I am an expert
- (14) To what extent can you write accessibly (language level B1; plain language)?
- Not at all
 - A little
 - Good

22 • Hobo et al.
